Various Committees are formed for the smooth administration of the organization/institution. The case study of the purchase committee shows that the institution follows the policy of decentralization and participative management. Purchase committee comprises of five faculty members from the teaching faculty. Though Principal is the head to give the final remarks in the decision of the committee, senior faculty member is coordinator of the committee. Firstly the demand and the requisition are received by the office. Then the Principal marks the demand and forward the requisition to the committee. The coordinator of the committee notifies the date and time of the meeting to discuss about the demands received. Quotations are called upon from the various suppliers and the three lowest quotations are selected from the received quotation and the statement is prepared. This statement is signed by the committee members. This procedure is done through full transparency in the presence of all committee members. The order is placed to the appropriate or lowest price giving supplier. After the order is completed, cheque/RTGS/Challan etc. is issued in the name of the supplier. The minutes of the meeting are maintained regularly.

Following is the details/documents of a purchase of **interactive flat panel 65” display** to show the process of purchase committee.
